**To Whom It May Concern:**

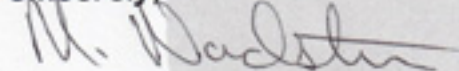

This letter is my personal recommendation for Josh Kirkland. Until just recently, I have been Josh's immediate supervisor for 5 years. I found him to be dedicated to Riding's Publications with a strong sense of pride and accomplishment in his design work. He was always there in a pinch when we needed him to go the extra mile.

He brought his own design look to Riding's Publications in both our monthly issues of California Riding Magazine & yearly publication California Horseman's Directory. He worked closely with our creative director and our sales staff. He was able to work with both groups effectively.

Besides the publications, he worked with several of our outside design clients creating logos, ads, brochures, programs and websites. He learned how to create designs for the Equestrian Industry.

I highly recommend Josh for employment, he is a team player and would make a great asset to any organization.

Sincerely,

Mimie Nordenstrom  
General Manager
